

## SAFETY SCENARIOS

### Instructions:

- Create groups of 3-4 classmates
- Then, choose a scenario from the list provided or your teacher will assign a scenario to your group
- In your group create two scenarios:
  - The first scenario will be demonstrating what could happen when NO safety prevention steps have been taken.
  - The second scenario will be demonstrating what could happen when safety prevention steps have been taken.

*\*scenarios are provided on next page 😊*

Leaving toys in the middle of the living room leading to someone tripping or falling
Going on a boat ride
Leaving cleaning products on the table or low shelf
Leaving medicines in an unlocked spot where a young child can reach them
Leaving the handle of a pot sticking out from the stove while cooking
Riding a bike, skateboard, or a scooter without a helmet
Picking up a needle without using proper protective gloves
Watching another person bully someone
Watching a friend put personal content on social media just for likes
Letting young kids play with plastic bags
Letting babies/toddlers play with very small items like tiny toys
A fire happens in a home, the residents do not have a fire safety plan
You use your computer/phone/Xbox for hours staring at the screen without getting up
You are not a very good swimmer but decide to go far out into the lake with your friends who are very good swimmers
